REMARKS

Claims 1-3, 5-12, 20-22, 27-31, 35 and 36 currently appear in this application. The Office Action of December 26, 2007, has been carefully studied. These claims define novel and unobvious subject matter under Sections 102 and 103 of 35 U.S.C., and therefore should be allowed. Applicant respectfully requests favorable reconsideration, entry of the present amendment, and formal allowance of the claims. It is respectfully submitted that the present amendment raises no new issues requiring further consideration and/or search, and entry of the present amendment is respectfully requested.

Double Patenting

Claims 1-3, 5-12, 20-22, 27-31, 35 and 36 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-16 of copending application No. 10/381,665.

This rejection is respectfully traversed. It is believed that the claims are now in condition for allowability. The '200 application is currently on appeal and awaiting decision by the Board of Patent Appeals. It is respectfully submitted that a Notice of Allowance will be issued in the present application before the '200 application

This rejection is respectfully traversed.

Claim 9 has been amended to place the substituents on the aryl and heteroaryl groups into a proper Markush grouping.

Claim 21 has been amended to correct the definitions of n and n', as well as to define the variable R^6 . Claim 21 has also been amended to delete "consisting." In claim 21, C_1 alkenyl, alkynyl and cyclic have been amended to C_2 alkenyl and C_2 alkynyl. Support for the amendments to alkenyl, alkynyl and cyclic groups be found in the specification as filed at page 9, lines 5-21. The period at the end of the $15^{\rm th}$ line on page 38 has been deleted, and the capital letter on Heteroaryl has been amended to a lower case letter. The Examiner is correct that there should be a subscript in $(SO2)R^3$, This term has been amended to read $(SO_2)R^3$.

In view of the above, it is respectfully submitted that the claims are now in condition for allowance, and entry of the present amendment and favorable action are earnestly solicited.
